## Conservation Areas

Significance: The park is important as a feature of the Conservation area, retaining elements of a 19th century landscape - open parkland, and mature woodland trees, with the main phase of development laid out after 1840. It is based on the original De Freville Estate which was laid

The conversion of forest to oil palm plantations is clearly the biggest threat to the remaining forests on Borneo. Copies of these can also be purchased.

## Hill End Historic Site

SMALL UTILITY CUPBOARD with uPVC double glazed window, plumbing for washing machine and heating duct. The often original interiors, artefacts and gardens suggest the daily life and aspirations of their inhabitants.

## Hill End Historic Site

The area also includes Brooklands House and Empty Common to the west.

### **Northenby**

Many people may think that the major conservation goal in Borneo is to set aside vast tracts of untouched forest for conservation, but for those dealing with day-to-day reality, compromise is the only realistic alternative ref.

. Independent 'specialist' advice may not always be fully informed or reliable so it is very important to get advice from one of our Planning Officers before making changes. If this trend continues, forest cover will drop to less than a third by 2020 figure.

### **Book chapters: 'Nature conservation**

Clearing forests may enrich those who are doing it, but over the long run it impoverishes the planet. In addition, losing the rainforest would mean losing biodiversity. Browse book chapters on a wide variety of disciplines and organise your bibliography correctly.
