Historic Sites and Points of Interest in Douglas County, Oregon

Despite the widespread use of one-room schoolhouses, in 1914 the Oregon State Department of Education began pushing Progressive education reforms by encouraging standardization of teacher training, texts, and school design through various publications.

Lystul (historical) Topo Map in Douglas County, Oregon

The Historical Society at this time decided to try on their own for a site to maintain and display the artifacts of the Moore home and other items they had collected. The Oregon Trail went right over the top of Mount Oread.

Douglas County Oregon Historical Schools

No other buildings, structures, or objects are located on the property.

Category: National of Historic Places in Douglas County, Oregon

These date to the last decades of the nineteenth and early twentieth century. The two-panel door has a single rectangle placed over a smaller square panel. In the Oakland, area consolidation was contentious, as many small communities resisted losing their individual identity and control over the education of their children.

Douglas County, Oregon: History

Driving the Trails Today Both trails began in Independence, Missouri, and followed the same route until they split in Gardner, Kansas, just East of the Douglas County line. The setting of the English Settlement School in an open picturesque area in close proximity to a major road among the farms of English Settlement reflects the historic placement of schools, but also the ideals proponed by pattern books. It has been received well by the public and was supported by local residents and the merchants of the county who submitted stories and historical ads for the publication.
