**Tim Thornton**

Marching Across China, Army Veterans Join Ranks of Protesters. No single treatment works best. .

## Mental health system costs, resources and constraints in South Africa: a national survey

Results from an NIH trial showed that a low-dose diuretic cuts by half the chance that an older person with high systolic blood pressure will develop heart failure. Each episode featured interviews with NIH Institute or Center directors, who invited extramural scientists to present their research in lay terms for a general audience.

## Department of Health

All other programs and services are trademarks of their respective owners. PHS became part of the newly created Department of Health, Education, and Welfare on April 11. With small caseloads, PACT teams can address each person's needs and strengths to provide the right care at the right time.

## Department of Health and Human Services (HHS)

We have all the arguments for integration - economic, rights-based - and we have seen all the facts.

## No Health Without Mental Health: The Urgent Need for Mental Health Integration in Universal Health Coverage

Adding to a developing body of research examining a possible link between diabetes and cognitive decline, a long-term study supported by NIA found that diabetes mellitus was linked to a 65 percent increased risk of developing Alzheimer's disease AD. Between 1992 and 1996, the rate of Sudden Infant Death Syndrome SIDS dropped by 38 percent, much of that likely being due to a 66 percent decrease during the same period in the number of U.

## **UN leads call to protect most vulnerable from mental health crisis during and after COVID**

And they should be involved in advocacy and in policy influencing. In partnership with the American Association of Medical Colleges, NIH created and activated a telemedicine brain trust for specialty medical consultations over a telephone hotline. Because of its very nature, mental health care raises as many conceptual questions as empirical ones.
