Symptoms of Coronavirus

Our dashboard indicator numbers are stable, meaning they are no longer declining. History has taught us that health crises pass.

The Lasting Impacts Of COVID

Guidance of the needle with an ultrasound probe attached to the bronchoscope endobronchial ultrasound or EBUS can almost always lead to a diagnosis of sarcoidosis when it is present. Decorate your house, dress up in costumes and have virtual contests this year instead of in-person.

The Lasting Impacts Of COVID

In this article, learn what depression is and what causes it.

Containing Health Care Costs: Recent Progress and Remaining Challenges

Monitoring and reporting on medical assistance in dying Monitoring and reporting are critical components in building transparency and public trust in the law. It's important to keep in mind that all of the following treatments have been used and studied much less extensively than corticosteroids. Please call your medical provider for any other symptoms that are severe or concerning to you.

The Problem With Canada's Unsustainable Health System

.

The Next Global Depression Is Coming Amid the Coronavirus

This information helps orient communications and other engagement to support communities at higher risk with the vital resources such as

information in different languages, access to testing, or food or mental health supports in case people need to self-isolate. Among the survey results, which can be found on the Engage Ottawa , we found that eighty-nine per cent of residents said they are supportive of the Temporary Mandatory Mask By-law, because masks are effective in reducing transmission and are an easy individual action one can take to protect others from COVID-19. While this data helps us identify areas that may need more support, it only reflects where individuals testing positive live, not where transmission is occurring

Global Health

Updated screening tool for students Yesterday the Province updated their online screening tool for students. If you decide to celebrate with those outside your household, please assess the risks for everyone involved.

The Future of Hospitals: Visions of the Healthcare Landscape in 2035

We can support each other to keep close contacts at a minimum.
