## Full text of L. Mosse Collection 1878

As mankind gradually sheds its illusions, it discovers itself in a world which, owing to the progressive application of science, becomes steadily more complex and at the same time less satisfying to the romantic craving for harmony. . The fantasies which were imposed over the people of the archipelago created a gulf between them and their neighbours and, internally, a hierarchical structure in which dissidence and difference were negated.

## Headlines

And ic forsace eallum diabules wercum and wordum, þunor erende, Wodne and Seaxneate, and eallum þam unholdum þe hira geneatas sind. Freilich gehört dazu Übung, vorzüglich durch guten Gesang; aber Vollkommenheiten werden ja selten angeboren, sie müssen erworben werden. This part of his work in some respects anticipates modern sociology.
