NY Fossil Location

While understanding the causes and mechanisms of tree mortality events is crucial, it is equally important to be able to detect and monitor mortality and subsequent changes to the ecosystem at broad spatial- and temporal-scales. Gas production is primarily from the basal black shale more » member of the Ohio shale.

SEPM

Exceptions existed, likely due to inputs from local sources.

Deltaic sedimentation in the Devonian of Western Libya

The eastern Shenandoah Valley is geologically complex. Rocks on the southeast side hinterland of the zone are almost exclusively right-side up, whereas rocks on the northwest side foreland of the zone are almost exclusively overturned.
