Cardiac Arrhythmias: Diagnosis, Symptoms, and Treatments

The causes for this practice need to be better understood through population-based studies and registries.

Arrhythmia Research

This causes blood to pool in the heart chambers and increases the risk of a blood clot forming inside the heart. Your opinions are important to us. Thus, as with most cardiovascular disorders, the most effective treatment strategy for patients with AF and HF would be prevention.

Researchers discover how heart arrhythmia occurs

Innovative Electrical Approaches to Arrhythmia Arrhythmia treatments usually consist of pharmacological approaches and implantable devices.

Arrhythmia Research

From several NIH grants to participation in clinical trials, UI Heath and UIC cover the full spectrum of scholarly work and cutting-edge research in heart rhythm disorders. Basic and translational studies that identify and study of the causative factors and mechanisms behind these AF-contributory states are needed.
