Biden's First Year: Key Actions for Latin America to Promote Human Rights

In the face of these common challenges, both the United States and Latin America have a responsibility to defend democratic ideals as partners. Embassy, State Department, and National Security Council are regularly raising concerns about specific obstacles to implementing the peace accord, and issuing praise when advances are made. This includes working with Colombia to develop more robust, bilateral drug policy goals that focus on reducing the amount of families that depend on coca for survival, instead of relying on unproven metrics like hectares eradicated.

And it starts with recognizing the need to work with reformers and civil society leaders in Latin America confronting authoritarian tendencies and authoritarian leaders—that is, political actors and their allies who are seeking to hollow out institutions from the inside, close civic space, and undermine rule of law in order to cling to power. Over 68,000 people were sent back to Mexico under the program, creating at the border. It is interesting, then, that years after activists first pushed for the passage of the recently-reintroduced —a reference to the Honduran environmental activist slain in 2016—which would cut off security aid to Honduras pending significant improvement in human rights and sanctions for rights-abusing security forces, the Trump administration would act unilaterally to eliminate aid for completely different reasons.
