## Industrial Democracy/Part I Trade Union Structure

Points to Remember The following remedies have been suggested to cure democracy of its defects: ADVERTISEMENTS: a The introduction of direct democratic devices like referendum, initiative and recall.

### Eugene Debs Believed in Socialism Because He Believed in Democracy

Trade Unionism has had constantly to struggle against this spirit of local monopoly, specially noticeable in the seaport towns. The central executive found itself bitterly reproached by the federated employers for what seemed a breach of faith, and public opinion was scandalised by the lack of loyalty and discipline. Thus, in the absence of any financial strengthening of the weakest members, the bulwark of a merely instinctive Standard of Life insidiously gives way before employers' importunities.

Finally, even those who regard our facts as accurate, and accept our economic theory as scientific, will only agree in our judgment of Trade Unionism, and in our conception of its permanent but limited function in the Industrial Democracy of the future, in so far as they happen to be at one with us in the view of what state of society is desirable. Whenever the union was enjoying a vigorous life we find, to begin with, a wild rush of propositions.

### 8 most essential conditions necessary for the success of democracy

But they have, from the beginning, had their own quarterly meetings, and elected their own separate executive committee and salaried secretary, who conduct all their distinctive trade business, moving for new privileges and advances independently of the general body.
