### Bernardus Silvestris, Poetic Works. *Dumbarton Oaks Medieval Library*, 38

All three are based on scenarios from Roman declamation: the *Mathematicus* on *Declamationes maiores* 4 of ps-Quintilian, the *De gemellis* on *Declamationes minores* 8, and the *De paupere ingrato* on *Controversiae* 5.

### BERNARDUS SILVESTRIS, EDITION AND TRANSLATION on JSTOR

For the *Mathematicus*, Wetherbee focuses primarily on the question of determinism and free will. I soon discovered that a Lewis was right about the difficult Latin and what was difficult for a character in his novel was pretty much impossible for me! Deux index détaillés des noms de personnes et textes anonymes et des manuscrits cités sont établis pour chaque volume. By placing the passages in two columns it is clear to the reader as it is to Baswell that the interpretations are congruent, although the notes in the Peterhouse MS appear to be shortened and simpler versions of notes in the Silvestris commentary.

### Bernardus Silvestris

Two detailed indexes of names of persons and anonymous texts and manuscripts cited are established for each volume. I intend to do a full review of the volume -- someday. It is possible that Bernard also lived and taught in other cities, such as Orléans.

### Bernardus Silvestris: *Cosmographia*

Smitss account is rejected by Jones, who says that Baswells account is mostly correct but requires some modification. For example, a contemporary of Bernardus, , who was , quotes from works attributed to Bernardus but does not know the author by name. The articles received are subject to proofreading with two personalities, members of the Scientific Committee or external, specialists in the subject studied.

### Bernardus Silvestris (? — 1178), philosopher, teacher, poet

But I also took advantage of a shortcut.

### Poetic Works — Bernardus Silvestris, Winthrop Wetherbee

Vernet says that Silvestris, for whom this confusion was normally detrimental, probably gained from this particular confusion, as he is most often credited for the commentary on Vergil's Aeneid.

They then descend, one by one, through the planetary. Bernardus hat es Papst Eugen III.

### **Bernardus Silvestris (Author of The Cosmographia of Bernardus Silvestris)**

Smits, like André Vernet 1938 , hypothesizes that Carnotensis the pen-name of the commentary is — the individual who Silvestris is most confused for. Background The date of birth of Bernardus Silvestris is unknown. All three will be required reading for those interested in the afterlife of Roman declamation.
