### Safe sex : polyamory

Talk to your healthcare provider Your healthcare provider can offer additional advice about protecting yourself from STIs and when sex is safe with certain medical conditions such as after a heart attack. I'm a little skittish about new partners coming inside me including mouth , so I wait on that. Hormonal birth control is incredibly effective, but only when taken properly and consistently.

### Safe sex

Prevent sores or cuts to decrease your risk for an STI. Do not have sex while you are being treated for an STI, or with a partner who is being treated.

### Safe Sex for Seniors [vip.stumagz.com](http://vip.stumagz.com)

You can purchase condoms at most any pharmacy or mass-market retailer. If your partner doesn't want to practice safe sex, or isn't forthright with you about their sexual history and experiences, don't have sex with them.

### Safe Sex (1999)

You need to get tested as soon as possible.

### Safe sex : polyamory

Share this decision with any partners, too, as a way to keep yourself accountable.

### How to Have Safe Sex

Drugs like Plan-B, Next Choice, and ella can decrease the possibility of pregnancy after unprotected sex when no contraceptive is used. Your provider can give you more information on vaccines to prevent STIs. You might be at risk even if you're using , taking —or even not having intercourse at all.
