## Fujiwara no Teishi

The emperor's burial place would have been quite humble in the period after Ichijo died.

## Fujiwara no Teishi

Two years later, after Emperor Kazan abdicated in 986, Ichijō ascended to the throne at the age of six. Äußerlich wohl nicht sonderlich attraktiv, glich sie diesen Mangel durch Anmut des Stils, Bildung und eine empfindsame Beobachtungsgabe aus, wie sie in ihrem Werk zum Ausdruck kommt. Most people thought it impossible to have two empress consorts, but Michinaga claimed that the empress held two separate titles, Chūgū and Kōgō, which were different in principle and could therefore given to two different women.

## Sei Shōnagon

First was Teishi or Fujiwara no Sadako a daughter of Fujiwara no Michitaka.

## Emperor Ichijō

The internal power struggle that ensued within the Fujiwara saw the untimely ends of three emperors. Ichijō had been appointed under in 984.
