### Recovered

B Commencing January 1, 2013, i any health care provider who administers vaccines to children under the federal Vaccines For Children immunization program that is operated by the Department of Public Health under authority of 42 USC 1396s shall utilize, and the department shall provide, any vaccine licensed by the federal Food and Drug Administration, including any combination vaccine and dosage form, that is I recommended by the National Centers for Disease Control and Prevention Advisory Committee on Immunization Practices, and II made available to the department by the National Centers for Disease Control and Prevention, and ii any health care provider who administers vaccines to children shall utilize, and the department shall provide, subject to inclusion in such program due to available appropriations, any vaccine licensed by the federal Food and Drug Administration, including any combination vaccine and dosage form, that is I recommended by the National Centers for Disease Control and Prevention Advisory Committee on Immunization Practices, II made available to the department by the National Centers for Disease Control and Prevention, and III equivalent, as determined by the commissioner, to the cost for vaccine series completion of comparable available licensed vaccines.

### Chapter 368a

The AHA acknowledges that child sexual abuse is serious, damaging and at least some memories are genuine, while cautioning that some questioning techniques and interventions may lead to illusory memories leading to false beliefs about abuse. Transferred to Chapter 319j, Sec.

### Chronic Lyme disease

Section 19a-1b is repealed, effective July 1, 1995.

### Recovered

The rate of delayed recall of many forms of traumatic experiences including natural disasters, kidnapping, torture and more averages among studies at approximately 15%, with the highest rates resulting from , military combat, and witnessing a family member murdered.

### Recovered

Section 19a-6g is repealed, effective July 1, 2013. The program shall A be an alternative, voluntary and confidential opportunity for the rehabilitation of health care professionals and persons who have applied to become health care professionals, and B include mandatory, periodic evaluations of each participant's ability to practice with skill and safety and without posing a threat to the health and safety of any person or patient in the health care setting.

## **Chapter 368a**

Prior to conducting the audit, the auditor shall agree in writing 1 not to copy any program files or records, 2 not to remove any program files or records from the premises, 3 to destroy all personally identifying information about health care professionals participating in the assistance program upon the completion of the audit, 4 not to disclose personally identifying information about health care professionals participating in the program to any person or entity other than a person employed by the assistance program who is authorized by such program to receive such disclosure, and 5 not to disclose in any audit report any personally identifying information about health care professionals participating in the assistance program. The commissioner shall establish, within available appropriations, an immunization program which shall: 1 Provide vaccine at no cost to health care providers in Connecticut to administer to children so that cost of vaccine will not be a barrier to age-appropriate vaccination in this state; 2 with the assistance of hospital maternity programs, provide all parents in this state with the recommended immunization schedule for normal infants and children, a booklet to record immunizations at the time of the infant's discharge from the hospital nursery and a list of sites where immunization may be provided; 3 inform in a timely manner all health care providers of changes in the recommended immunization schedule; 4 assist hospitals, local health providers and local health departments to develop and implement record-keeping and outreach programs to identify and immunize those children who have fallen behind the recommended immunization schedule or who lack access to regular preventative health care and have the authority to gather such data as may be needed to evaluate such efforts; 5 assist in the development of a program to assess the vaccination status of children who are clients of state and federal programs serving the health and welfare of children and make provision for vaccination of those who are behind the recommended immunization schedule; 6 access available state and federal funds including, but not limited to, any funds available through the federal Childhood Immunization Reauthorization or any funds available through the Medicaid program; 7 solicit, receive and expend funds from any public or private source; and 8 develop and make available to parents and health care providers public health educational materials about the benefits of timely immunization.
