'Rival States' Revisited

Each duopolist determines his maximum profit levels from both leadership and followership and seeks to play the role which yields the larger maximum. Not only are they closer to their own market, but they are also free to let the market define them.

How China the copycat became a tech giant to rival the US

Honda, which sold its scooters, motorcycles, and cars worldwide on the strength of its superior technology, quality, and brand appeal, was planning to enter the Indian market. Rival was proud of the fact that its rejection rate was extremely low, and, even for a period after the war, Rival continued to make three styles of the switch for the Navy.
