### Industry Guide for the labelling of cosmetics

The declaration must contrast clearly with all the other information that appears on the label. After the word Ingredients, the word Farine appears followed by a comma, the words Albumine liquide followed by a comma, the words Huile végétale appears followed by a comma, the word Sucre appears followed by a comma, the words Brisures de chocolat followed by an open parentheses with the words sucre followed by a comma, the words cacao liquide followed by a comma, the words beurre de cacao followed by a comma, the words substances laitières followed by a comma, the words lécithine de soja followed by a comma, the word sel followed by a comma, and the words arôme naturel, followed by a closed parentheses. Confirm the exact requirements with your jurisdiction.

### Safety & Health Guide for the Chemical Industry

The next line is Per container followed by a common slash followed by Par contenant followed by an open parentheses followed by 80 g and then a close parentheses. This is the Daily Value footnote that was referred to at the beginning of the table description. Definitions The following definitions may be useful.

### Sample Warning Letter to Contractor

If the printing of the label that includes the warning is in color, the triangle must also be yellow. There is no set format for a supplier label.

### WHMIS 2015

We request you to take an action as soon as possible. If not listed, for standardized foods, the name printed in boldface type in the FDR; the name prescribed by any other Regulations e.

### Inspection Checklist

While there are no specific display formats to declare these allergens, licence holders may consider following a similar format to the one listed here

to declare food allergens for edible cannabis. Send suggestions, comments, and new entry desires include the URL if applicable. Labels are the first alert to the user about the major hazards associated with that product, and outline the basic precautions or safety steps that should be taken.

### **Retailers: Product Safety and Your Responsibilities**

Specifically worded green and white signs indicate specific safety-related instructions or procedures, or suggestions.

### **10 Notification Letters to Supplier for Various Reasons**

Regular weight and width standard sans serif font, without italics, in the colour black and with leading of at least 8 points. These statements must not be used when an allergen or allergen-containing ingredient or constituent is deliberately added to edible cannabis. Because the requirements for pressurized metal containers are also applied these signal words should already be present.

### **Industry Guide for the labelling of cosmetics**

Type size of at least 6 points and smaller than the type size used for the health warning message.
