The Atheist Debater's Handbook by B. C. Johnson

I think a better general text on atheism, though not as freely accessible, is. Exploring Philosophy and Biblical Studies, Science and Ethics, Politics and Ecology, Economics and Literature, this book argues that when atheists are truly atheist and Christians truly Christian, there is true hope for a better world. This handbook is a pioneering edited volume, exploring atheism - understood in the broad sense of 'an absence of belief in the existence of a God or gods' - in its historical and contemporary expressions.

The book is a tour-de-force because of the evidence it provides for naturalism and against theism, and also because of the insights it provides into perplexing questions about God's power, explanation, causation, laws of nature, and miracles. American leftists blamed America for riots in Islamic nations over such things as Koran burnings. Reasonable Faith Reasonable Faith aims to provide in the public arena an intelligent, articulate, and uncompromising yet gracious Christian perspective on the most issues concerning the truth of the Christian faith today, such as: the existence of God, the meaning of life, the objectivity of truth, the foundation of moral values, the creation of the universe and many more.

Belief without evidence, and 2. Over on Twitter there are a cadre of atheists who love to debate these philosophical arguments with Christians back and forth, to what effect I don't know. Of course if science is wrong about that, what ELSE is factual science wrong about? Basically this Lesser Professor thinks he has all religions shutdown by his insistence, and poor understanding, of FAITH - as HE labels it.

And that is the problem: He confuses Biblical faith with that of other beliefs, as well as Atheistic faith - like those that worship at the foot of scientism and evolutionary peer review especially since so few of those are ACTUALLY scientists and peer reviewers.
