Almanhaj

Before we do that, the reader should note that the implications of these methods differ. The greatest scholar of the Seerah of Rasūlullāh Sallāllahu Alayhi Wasallam, his work was used as a basis of later works about the Seerah.

Principles of Hadīth

With regards to the science of hadith itself and the study of isnad chains and rijal narrators, the Hanafi and to a lesser extent the Maliki madhabs presented an alternative to understanding the authority, authenticity and epistemology of hadith.
