## Echinoid Distribution Habits Key Largo Coral Reef Preserve Florida

The Funtanazza section is dominated by fine- and coarse-grained siliciclastic lithologies.

## Observations on the Predation of the Clypeastroid Echinoid, *Monophoraster darwini*, from the Upper Miocene Entreerrios Formation, Patagonia, Argentina on JSTOR

In the present work, we provide morphological and geographical updates on *Homolampas fragilis* found in the Brazilian coast.

## Echinoid Distribution Habits Key Largo Coral Reef Preserve Florida

Here, fine-grained sandy substrates are dominated by mostly infaunal spatangoids together with the minute clypeasteroid *Echinocyamus* having a shallow infaunal lifestyle. Sur une faune d'échinides dans la série messinienne de Céphalonie Grèce in Greek , Ann. Marine and Freshwater Behaviour and Physiology 46: 431—446.

## TORTONIAN CLYPEASTER FAUNA (ECHINOIDEA: CLYPEASTEROIDA) FROM GAVDOS ISLAND (GREECE

*Paracentrotus lividus* Lamarck, 1816 nel Pleistocene dell'Emilia. Echinoid distribution and habits, Key Largo Coral Reef Preserve, Florida, Smithsonian Miscellaneous Collections, 149, no. Phylogeny and origin of Jurassic irregular echinoids Echinodermata: Echinoidea.

## Choosing the right home: settlement responses by larvae of six sea urchin species align with hydrodynamic traits of their contrasting adult habitats

Encrustation by barnacles arrow on *Amphiope* sp. Highly abraded fragment of *Amphiope* sp. Distribution and Abundance of the Lamp Urchin *Echinolampas crassa* Bell 1880 in False Bay Cape.
