Managing Change in Academic Libraries by Joseph Branim

I am also continuing to reach out to as many ACRL members as possible to better understand their goals and expectations. How do you recommend that librarians expand their horizons in this area? Inspiration and diversity of views are critical tools for effective leadership so I also recommend viewing , which draw from key experts who are dynamic speakers and thought leaders in lots of fields Self knowledge and reflection are also important. In many cases across the country, libraries are altering how they fulfill their purpose by placing the student experience at the center of planning efforts to enable student success.

Managing Change

With an MBA from Bentley University, an undergraduate degree from Holy Cross, and his service as a US Peace Corps Volunteer in the Republic of Korea for which he is a recipient of the Van Fleet Award, Jim brings an unusually broad set of experiences to his work developing leaders. The majority of directors cut from each of the three areas we asked about: 62 percent made cuts to collections, 59 percent allocated cuts to staffing, and 53 percent cut funds from operations. It is also important not just to think about what your organization does but also why it does what it does — what is its purpose, its beliefs, and its reason for existing. These shifts on campus are changing how libraries fulfill their purpose — resulting in both spatial and service model changes.

New from ACRL

Radio Frequency Identification RFID technology is being increasingly implemented in academic li. The book is designed to help readers find direction and purpose in working practice.

“What We Do Every Day Is Impossible”: Managing Change by Developing a Knotworking Culture in an Academic Library

The author notes that the Organizational Development OD movement has now become the basis upon which academic libraries approach

organizational change, but it may be limited if it neglects earlier organizational approaches.
