

# Essentials of forestry investment analysis

## s.n.] - A Guide to Analyzing Forestry Profit Potential

### Summary

This brief highlights how forests and the forestry sector provide essential services and products to support health and livelihoods during times of crisis, how investing in sustainable forest management and forestry jobs offer opportunities for a green recovery, and how healthy forests build resilience against future pandemics. In this context, it proposes policy recommendations to ensure that forest-based solutions be considered for recovery from the COVID-19 pandemic and building back better.
