## Jong Hyun Kwak

For instance, the number of civil service examination graduates each clan produced will be classified and compared to look at which clans had more opportunities to get into the core of court politics, and when they enjoyed such opportunities. He mentions many important historical figures from the Andong Kim clan throughout his book.

## A history of Korean literature

Sŏul T'ŭkpyŏlsi: Kyŏngin Munhwasa, 2003. Furthermore, previous research tended to characterize the political regime through social phenomena in the nineteenth century instead of analyzing it systemically or structurally. Offering respectful titles to the royal family members might be seen as a form of political flattery.

## Jong Hyun Kwak

During this period of de facto military rule, Goryeo monarchs continued to be viewed as Sons of Heaven and emperors, and Goryeo continued to be viewed as a tianxia.

## Collusive oligopolistic politics : sedo and the political structure of early

It can also mean how and by whom political power was divided, shared, or centralized. However, to a certain extent, he focused mostly on describing conflict between monarchs and their officials. Figure 8 The Relationship between the Ŭiryŏng Nam and the Andong Kim Clans In addition to the above-mentioned conflict between Kim Tal-sun and Kim Myŏng-sun, two members of the same clan, during the reign of King Sunjo two brothers from the Ŭiryŏng Nam provide another good example to challenge the notion of political homogeneity within the 56 Ibid.

## Collusive oligopolistic politics : sedo and the political structure of early

Third, school line and alumni. The and maintained the view of Goryeo as a tianxia. The secondary capitals represented the ancient capitals of the Three Kingdoms of Korea.

## **Jong Hyun Kwak**

It is between one and three percent. Furthermore, by examining in which region civil service examination graduates were based, this thesis will further test the hypothesis that renowned clans in the capital region enjoyed more opportunities to produce more civil service examination graduates than other clans, those in rural regions. In contemporary Korean historiography, the political theme of sedo predominated after the death of King Chǒngjo r.

## **Jong Hyun Kwak**

Significantly, sedo is an example of the way Sino-Korean terms can be both descriptive the way things are and normative the way things should be.

### **Collusive oligopolistic politics : sedo and the political structure of early**

The school line, which refers to with which Confucian scholar students studied before becoming a government official, and the academic reputation of the family of the future spouse, in addition to what political faction they belonged to, were considered important factors in selecting a marriage partner. Silla began building an imperial Buddhist temple called the in the mid-6th century. That is why they both could be the husbands of the two daughters of King Sunjo, whose father-in-law was Kim Cho-sun also from the Andong Kim clan.
