degrees in public personnel administration at either the undergraduate or graduate level. The material was of great help.

## Objectives and Aims of Personnel Management

While Personnel Management was a strictly staff function, Human Resource management began to become an increasingly line management function, directly interlinked to the core business operations. My goal is to make sure they are well trained and use their skills to the best of their ability.

## Public Personnel Management: Contexts and Strategies

Do you think that high productivity and efficiency of the personnel department affect IMT labour turn over? Personnel functions are over emphasized which includes recruiting selecting, training, developing assimilating and remunerating employees so that the organization aims ad objectives are attained. Lack of performance appraisal, able of man power program, training and development.

## Commissioned Corps Management Information System

The research for the above assertion has been that the personnel does not manage the human resources effectively and it has been disastrous because the personnel department of an organization is the rock amongst all other resources.

## Literature review

PROBLEMS OF PERSONNEL MANAGEMENT IN PUBLIC ORGANIZATION;

Browse subject: Public administration

The government soon intervened to provide basic rights and protections for workers, and the need to comply with such statutory regulations forced factory owners to set up a formal mechanism to look into workers wages and welfare, and redress other issues concerning labor.

### **Literature review**

Environmental Management Public administrators are tasked with protecting the interests of the average citizen, and as the population has become increasingly concerned with the harmful effects of climate change, public administrators have begun orchestrating policies related to environmental management.

### **Project topics on PROBLEMS OF PERSONNEL MANAGEMENT IN PUBLIC ORGANIZATION;**

Has there been optimum performance on the personnel management of IMT. Public administrators play a crucial role in aiding federal agencies, such as the Department of Health and Human Services and the Transportation Security Administration. The third main area is development, which involves employee training and advancement programs as well as performance evaluations.
