practical in Norwegian

I am responsible for the concept, design, programming and development. HWIT Dort was es passiert. A more general aim of the paper is to show the use of a computer corpus in cross-linguistic research.

Introductory in Norwegian

Correspondence relations The advantage of a corpus of original texts and their translations is that the translation is intended to express the same meaning as the original text. Three types of correspondence relation are studied: translations how that's what is translated into German and Norwegian , sources the German and Norwegian forms that give rise to that's what , and parallels the parallel translation in the other language where a German or Norwegian form gives rise to that's what. The starting-point of the present paper is the English construction type illustrated in 1 : 1 That's what I meant.

Norwegian

The German and Norwegian correspondences are alike in preserving the theme of the construction. Hvis det virkelig er det lit.

keg

The preferred patterns vary, however.

keg

With few exceptions, both the German and the Norwegian correspondences differ syntactically from that's what constructions. See details for additional description.

Introductory in Norwegian

In going from Norwegian to English, we find two major sources of that's what constructions. Examples include the following: 19 Or is it presumptuous of him to think that this is what she is thinking. Zu Satzspaltung Cleft und Langer Extraktion in Germanischen Sprachen.

Norwegian Dictionary and Phrasebook by J. Gill Holland (2003, Trade Paperback) for sale online

Moreover, there is a very sharp difference between the correspondence patterns in the German and Norwegian translations.
