Medical aspects of orbiting research laboratory. From the study, readers would realize that the working class across the regions studied remained downtrodden and underprivileged although their bourgeoisie counterparts continued to live in luxury and prospered. It includes titles of dissertations granted in calendar year 1978 as well, but does not include classroom materials, committee or departmental reports, or materials whose distribution is restricted or limited.

## Research Symposium

Single-hulled tankers carrying fuel oil—the most polluting oil—would be banned immediately from all EU ports; the ban would apply to all single-hulled tankers by 2010. The novel helps to create concrete imagery of the effects of the Depression on the sharecropping population in America.
