## Burden of childhood

Overall, 70% of the eyes were either visually handicapped or totally blind. The literature search identified 35 potentially relevant articles, whereby 8 met the inclusion criteria.

## Pomegranate Use to Attenuate Bone Loss in Major Musculoskeletal Diseases: An Evidence

Few months into the treatment, I made a significant recovery. Certolizumab 400 mg did not offer a significant advantage over 200 mg, and both dosages were significantly better than placebo. Leptin and visfatin serum levels in non-diabetic ankylosing spondylitis patients undergoing TNF- $\alpha$  antagonist therapy.

## Restoring the Balance of the Autonomic Nervous System as an Innovative Approach to the Treatment of Rheumatoid Arthritis

A piece of transplant tissue was trimmed to a block of 4—8 mm in diameter prior to implantation. I am currently on Enbrel, methotrexate and high dose prednisone. Adiponectin and leptin induce VCAM-1 expression in human and murine chondrocytes.

## Comparative study on immunomodulating drugs for rheumatoid arthritis

Evidence suggests that both genetics and environmental factors play a role in RA development. The parasympathetic nervous system mainly consists of the vagus nerve, the tenth cranial nerve. Franchimont N, Vrindts-Gevaert Y, Collette J, et al.

## Repurposing Available Anti

Specific EULAR recommendations reaffirm the relevance of managing the higher cardiovascular disease risk, not only in patients with RA, but also in those with SA or PsA.

### **role of TNF- $\alpha$ in the pathogenesis of inflammation and joint destruction in rheumatoid arthritis (RA): a study using a human RA/SCID mouse chimera**

Further, not all the articles have exclusively used the ILAR system of classification. New therapies for treatment of rheumatoid arthritis. Systemic levels of adipokines are often altered in the presence of inflammation.

### **Rheumatoid arthritis and immunosuppressive drugs**

Evaluation of anti-citrullinated filaggrin antibodies as hallmarks for the diagnosis of rheumatic diseases. Smolen J, Landewé RB, Mease P, et al. Samples of human synovia were collected from RA patients who fulfilled the revised criteria of the American Rheumatism Association at the time of total knee replacement surgery or synovectomy.
