FRG Grants

The development of emphasizes the importance of sound program design as an essential component of performance management and program administration. Corrective action means action taken by the auditee that: 1 Corrects identified deficiencies; 2 Produces recommended improvements; or 3 Demonstrates that audit findings are either invalid or do not warrant auditee action. AT THE ENERGY DEPARTMENT : The Energy Department's Loan Program Office guarantees loans to eligible clean energy projects and provides direct loans to eligible manufacturers of advanced technology vehicles and components.

Grants for Local Government

These definitions could be supplemented by additional instructional information provided in governmentwide standard information collections. While this will cause only minor inconvenience on road and bridge projects, the required competitive award of multiple prime contracts for the design and construction of the MEP components of transportation facilities and support systems adds a more material layer of complication and expense.

Federal :: Guidance for Grants and Agreements

These requirements are applicable to all costs related to Federal awards.

Rural Fire Department Resources for Local Officials

OMB would like to point out that the thresholds in part 25 are unrelated to the threshold in § 170.
