Virtual University: There is a growing awareness that learning does not cease at the end of full-time education.

Metadata for Digital Preservation: An Update

Why we should preserve electronic documents. Adoption of Post-Completion Reviews Similarly the review process on projects has been standardized and formalized.

Learning by experience in the project

Climate Crash seeks to answer these questions, breaking the story of rapid climate change to a general public that is already intensely curious about what science has to say on the topic. Also included are major sections on monitoring and conservation efforts in the face of contemporary climate change. The cataloguing staff will only have to add what is not there.

CEDARS: Digital Preservation and Metadata

Liberia

Climatologists and oceanographers have focused on the changes in our physical environment -- changes in the climate, the oceans, and the chemistry of the air we breathe. Carbon and water exchange of terrestrial systems E. Zurich: International Project Management Association.
