Patient participation — a review of the literature, Journal of Clinical Nursing

The literature review included only articles published in English. In addition, they sometimes did not perceive participation relevant. Keywords: Patient engagement, patient involvement, patient participation, citizen engagement, active engagement activities.

Patient empowerment, patient participation and patient

There is need for common language in patient engagement, and clear terminology with a clear definition, and clear goals for the activities identified with patient engagement.

Patient participation — a review of the literature, Journal of Clinical Nursing

This could elucidate possible clinical workable elements that might be used in future interventions. Click for more info The first Patient Participation Group was set up by a GP in 1972 and many general practices in England now have a PPG. We are aware of additional literature on interventions to support transitional care of the elderly Laugaland et al.

How can we describe impact of adult patient participation in health

Health providers suggested this attitude was caused by a lack of motivation Huby et al. This led to feelings of distress and several patients speculated about self-discharge.

How can we describe impact of adult patient participation in health

Re-hospitalization was prevented significantly using a care transition program Brooks ; Watkins et al. Six out of sixteen patients had not been informed about the family meeting being arranged for them.
