Sample Plans for OSHA compliance

Also provided are lists of training subjects and workplace checklists. It also affords an efficient means to review your current safety and health activities for better control of your operations, and to plan future improvements.

Landscape and Horticultural Services

. One is an overall list of major changes or improvements needed to make your Injury and Illness Prevention Program effective.

Division of Occupational Safety and Health

This manual is designed to help employers provide better workplace protection for their employees, and to reduce losses resulting from accidents and injuries. These records must also be kept for at least one year, except that training records of employees who have worked for less than one year for the employer need not be retained beyond the term of employment if they are provided to the employee upon termination of employment.

Sample Plans for OSHA compliance

This manual describes the employers' responsibilities in establishing, implementing, maintaining, an IIP Program.

Sample Programs

The first is a comprehensive safety and health survey of your facility to identify existing or potential safety and health hazards.

DOSH

Members of management should attend this meeting. Only through such a cooperative effort can a safety program in the best interest of all be

established and preserved.

Division of Occupational Safety and Health

The survey must be documented if made for the purpose of establishing an Injury and Illness Prevention Program.

Landscape and Horticultural Services

The investigation should describe what took place that prompted the investigation: an injury to an employee, an incident that caused a production delay, damaged material or any other conditions recognized as having a potential for losses or delays. When considering responsibility, do not forget to include all of your employees.
