**of Books, By Henry B. Wheatley, F.S.A. — A Project Gutenberg eBook.**

An antiquary who travelled through that town many years after the dissolution, relates that he saw broken windows patched up with remnants of the most valuable MSS.

La suite des événements, et en particulier les péripéties ultérieures de l'existence du futur prince de Bénévent, donnent un intérêt de haute curiosité à ce document, qui avait échappé à tous les historiens de la Révolution. Les numéros 888 et 889 sont datés 1667 et 1668, et la marque est décrite comme typiquement normande. One of the most distinguished among the Ashburnham manuscripts was one known as the Albani Missal.
