## Stu Cowan: What a difference a year makes for the Canadiens

Ambulatory laparoscopic cholecystectomy is as effective as hospitalization and from a social perspective less expensive: a randomized study. Attaching meaning actions by locating them in context of delirium prevention was important in reinforcing practice change. You've only been in the office for a minute, and you're already wondering whether you want to be associated with it.

## Chapter 46. Planning for Sustainability

Outcomes and costs of outpatient and inpatient cataract surgery: a randomised clinical trial. They may be more cost-effective than self-contained units on hospital sites.

## Special Report: Science and Technology

Among volunteers in wards 1, 2 and 6, there was a strong sense of involvement in a joint programme with staff. The designations employed and the presentation of the material in this policy brief do not imply the expression of any opinion whatsoever on the part of the European Observatory on Health Systems and Policies or any of its partners concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. So far, every off-season addition GM Marc Bergevin made has worked.

## What (a) Difference a Degree Makes: The Evaluation of the New Social Work Degree in England

You can't pay your electric bill with the fact that your friend owes you money. MEERA provides suggestions for all phases of an evaluation.
