Forensic Linguistics (MA) (full time) (1 year)

Specializations: Speech Science, Voice Quality, Speaker Characteristics.

Forensic Linguistics

I have resigned myself to never being able to spell. Other high level qualities are the so-called suprasegmental features: voice quality, intonation, number of syllables per second and so on.

Phil Rose webpage on Forensic Voice Comparison and Tone Language Phonetics

Teaching format You'll be taught with a mixture of lectures, seminars, workshops and practical training. .

Forensic Speech Courses, Department of Linguistics, University of Florida

FORENSIC SPEECH SCIENCE CONSULTANCY I consult as a forensic speech scientist for the police and private clients, and I have been doing forensic voice comparison, disputed utterance and trademark case-work on Australian English and varieties of Chinese for nearly 20 years. In 2004 I was a British Academy Visiting Professor at Edinburgh University's Joseph Bell Centre for Forensic Statistics and Legal Reasoning.

Forensic Linguistics (MA) (full time) (1 year)

The literature points in both directions and this can be a difficult call when people are actually entering the system. Notable is not only the hyoid bone posterior to the lower mandible every self-respecting mammalian skeleton should have one but also a penis bone, my placement of which now looks way too low.

Certificate in Forensic Linguistics

This is where Clinical Phonetics comes into use.

Forensic Linguistics (MA) (full time) (1 year)

Assessment of the taught component is by coursework only.
