Dreams

This article comprises a portion of the research leading to her, soon to be released, book entitled Group Analytic Music Therapy, published by Barcelona Publishers, Gilsum, NH. In a way there are two equal lanes: one is the manifest content of the music, and the other one is the latent content of the musical image.

freud quotes: “The interpretation of dreams is the royal road to a knowledge of the unconscious activities of the mind.”

However, for the unconscious material to enter the system preconscious, it must pass through a censor.

This discovery is often described as the beginning of modern sleep research, for it demonstrated that there were at least two major kinds of sleep and that sleep included active brain processes.

“Dreams Are the Royal Road to the Unconscious” by...

It exists between the unconscious and conscious. We get almost the same experience from daydreaming as we did playing as a child.
