A Brief History of Western Philosophy

It is to say that that endeavor, the labor—the adventure under truth, is possible, meaningful and realistic. Thus, the philosophy of, with all of its technical vocabulary and rigid systematization, may be viewed as an expression of the new professionalism in philosophy, a clear product of the rebirth of the German universities during the 18th-century Enlightenment. Processes at work in reason are at work everywhere...the universe is logical.

History of Western Philosophy

Scandinavia: von Wright, Justus Hartnack. As the first book since Bertrand Russell's 1945 *A History of Western Philosophy* to offer a concise single-author review of the complete history of philosophy from the pre-Socratics to the modern masters of the 20th century, Kenny's work fills a critical gap in the modern philosophy reading list and offers valuable guidance for the general reader of philosophy—an ideal starting point for anyone with an interest in great thinkers and the family lines of philosophical evolution. It is not a cultural relativism.

[PDF] A History of Western Philosophy Book by Bertrand Russell Free Download (895 pages)

For many years he was a philosophy tutor at Balliol College, of which he became master. But this restriction need not disturb us since the certainty of our experiential knowledge is left untouched whether space and time inhere in things-in-themselves or are the necessary forms of our perception of things...What things-in-themselves are apart from our sensibility, we simply do not know. Both intuitive and demonstrative knowledge provide certainty; whatever falls short of one of these is faith or opinion but is not knowledge in the strict sense...But: is there anything more than the ideas...is there a real world? Criticism of utilitarianism by Bernard Williams: mature persons shape their lives by meaningful projects whose importance is not determined by utilitarianism.

A History of Western Philosophy by Bertrand Russell

If Socrates turns out to be fictional, who else is? And, though you now have my opinion as well, don't let that deter you from approaching this well-written work. The Stoic ethical ideal implies a universal society of rational beings with the same rights—for reason is the same in all and all are part of the same world soul. Henri-Louis Bergson 1859—1941; French; metaphysics, process philosophy.
