On the western wall, there are remains of a large kline-like bench, 60 cm wide, built from burnt bricks coated with plaster and then painted red figs 14, 17. Furthermore, the existence of many altars and an Egyptian offering table with narrow water channels and some pottery from the necropolis could suggest such funerary cults and meals. The protective serpents for the Osirian fetish took many forms in the dynastic period: sometimes winged or lion-headed. III: 4 fragments, 2 in New York 26. Если признать, что старец происходил из Городца на Волге, который расположен недалеко от Нижнего Новгорода, то они могли встречаться в период работы Феофана в Нижнем.
