LE TROPISME DE JERUSALEM DANS LA PROSE ET LA POESIE (XIIe

This paper presents the unpublished anonymous translation of the «Dialogi» transmitted by the MS. Presentati per la prima volta nella traduzione italiana a fronte e con il supporto di un commento che ne illustra motivi, fonti e chiavi di lettura, i testi raccolti in questa antologia propongono una selezione rappresentativa per temi e per generi della poesia di Gualtiero.

There are no restrictions as to subject matter: the journal publishes articles and book reviews on any and all aspects of the Middle Ages, including art, history, literature, philosophy and theology, music, science, law, and economics. Complete: Journals that are no longer published or that have been combined with another title. The author recognizes that some Westerners drawn to Jerusalem in the period were armed, while others were not; some never actually traveled there but still wrote about Jerusalem; others made the passage and came back to compose stories and pseudohistories about their experiences.

It is unfortunate that the writing in this book is uneven, sometimes clear and insightful, other times prolix and clumsy.
