The Belgian State Railways : Belgische Staatsspoorwegen; : Chemins de fer de l'État Belge was the original state-owned railway of. Established by an organic law of 1 May 1834, it began construction of its first line, between and on 1 June 1834.

Spoorwegen in België = chemins de fer en Belgique = railroads in Belgium

Description of Belgian railways 1935. The feasibility of a railroad was investigated by engineers Pierre Simons and Gustave De Ridder.

Belgian State Railways

Change of voltage on line 162 Namur — Arlon — Luxembourg happens at the Kleinbettingen goods border station; other Belgian lines going to the grand-duchy of Luxembourg use 25 kV 50 Hz long before the border so there is no voltage change. In 1958 the network was fully state-owned. In 1870, the Belgian state owned 863 km of rail lines, while the private enterprises owned 2,231 km
