Pandemic, recovery efforts and significance of good governance in Bangladesh

Regulation variable in this research is reviewed from the aspect of sociology to build trust in regulations so that they can be adhered to and be implemented, namely the level of usability, ease, use, confusion and adherence to regulations in presenting quality financial statements and performance achievement. Therefore, the competencies of accounting resources are highly needed to maintain the financial statement quality as the output of the accounting department. Two major aspects regarding liquidity are Liquidity Coverage Ratio LCR and Net Stable Funding Ratio NSFR.

Accountability and governance: strengthening extra-bureaucratic mechanisms in Bangladesh

This was a descriptive and verificative research with a survey technique.

Transparency, good governance vital to continue dev: Tipu Munshi

Therefore, it is necessary to facilitate the regional government in preparing its officers to face the regulation changes, encouraging the implementation of regional financial governance in accordance with the applicable regulations, efficient, effective, transparent, accountable and auditable. In the context of public disclosures, financial statements should be easy for users to interpret. When the World Bank decided to withdraw their assistance from this mega project, one could not even think that the government would show their courage to take this project ahead.

Bangladesh : Financial Accountability for Good Governance

Implementation of National Accounting as well as Cost Accounting Standards are also used with other necessary steps in order to regulate the profession. Fellow Chartered Accountants or Associate Chartered Accountants are usually what members of the ICAB are designated as.
