In 1642 both Royalists and Parliamentarians expected that one great contest of arms would see the crushing of their enemies. The Royalist War Effort, 1642-1646 shows the build up to the outbreak of the war, detailing how the war was fought, and how, ultimately, it was won and lost. We cannot guarantee that Edgehill 1642 The Campaign And The Battle book is in the library.

The battle did not prove decisive and the stage was set for a prolonged and bloody civil war. It was fought on a wide range of religious, political and racial issues, and succeeded in dividing the traditional loyalties of class, friendship and family ties within all four kingdoms. The study also demonstrates how competition for resources and construction of identities fed into each other.
