## Water Programs

However, DDW recommends, but does not require, that any hexavalent chromium results collected by a water system in 2020 be reported in its 2020 CCR.

## Cross Connection and Backflow Prevention Rules and Codes

Filesize: 23.23 MB

The following documents describe the benefits of routine monitoring and information on reducing risk of and responding to contamination. Your 2020 eCCR will need to be updated accordingly. C When establishing backflow protection retrofitting schedules for fire protection systems that have the characteristics listed in d iv B of this subsection, the purveyor may consider factors such as, but not limited to, impacts of assembly installation on sprinkler performance, costs of retrofitting, and difficulty of assembly installation.

## Cross Connection and Backflow Prevention Rules and Codes

This is any actual or potential connection between public water and a contaminated source.

## Cross Connection and Backflow Prevention Rules and Codes

Please refer to the above under the section CCR Preparation Documents for additional information.

## Water Programs

. Many CCRs for California water systems are also available on the US EPA's website.
