Georges Braque

After meeting in October or November 1907, Braque and Picasso, in particular, began working on the development of Cubism in 1908. His best known paintings from this period are his still lifes *Violin and Candlestick*, 1910 and *Man with a Guitar*, 1911. A similar work, titled *Bottle, Glass , and Pipe* *Violette de Parme* , 1914 is currently in the collection of the Metropolitan Museum in New York.

Little Harbor in Normandy

So, square, straight lines, and bold colors, were always seen in the images which he displayed on the canvas. Edelstein, *The Art Institute of Chicago: Twentieth-Century Painting and Sculpture* Chicago: Art Institute, 1996 p. Munich: Haus der Kunst, 1963 , pp.

Georges BRAQUE (1882

Both paintings are held in the collections of MOMA. In 1899, at age seventeen, Braque moved from Argenteuil into Paris, accompanied by friends Othon Friesz and Raoul Dufy.

Georges Braque Sculptures

By 1918, Braque felt he had sufficiently explored papier collés, and returned to still life painting . Together they invented a technique titled papier collés in which a collage was made by adhering paper to a flat mount.

These prints are increasingly rare, few collectors have been able to reconstruct the series in its entirety.

Georges Braque Sculptures

In addition to the invention of Cubism, he did also focus on other forms of art which were prominent during this time period as well. The first work using this technique was *Fruit Dish and Glass*, 1912. He painted skulls repeatedly following his return from war and during the onset of World War

II.

However, he was extremely affected by a visit to Pablo Picasso's studio in 1907, to see Picasso's breakthrough work - Les Femmes d'Alger (O.J. version O). The medium fascinated him as it was less demanding as a technique than etching.

Georges Braque: Famous Paintings Analysis, Complete Works, & Bio

Braque became even more involved with printmaking in the 1930s.
