## Advocacy strategies and approaches: Overview

In Summary Advocacy is exciting work. Effective advocacy therefore requires research to map out the policy terrain, the principal actors, the political relations and the interests at stake.

## Virtual University

For each of the stops, he wanted to know: Is it properly indicated? And what if we had a real-life Westworld theme park, where people could go and do anything they want to life-like robots? For more on Marcel Moran's study, see his article: Are Shelters in Place? Or it was, until now.

## RIMS

To make this point they say: Among the largest propagation events we commonly observe are forest fires, but even these are bounded in their impacts compared to a global scale.

## Chapter 30. Principles of Advocacy

New Haven, CT: Yale University Press. Some advocacy work is more reactive than proactive towards policy makers, or is explicitly dialogical.

## RIMS

Paris: UNESCO, 2008 Narayan, Deepa Voices of the Poor: Volume 1: Can Anyone Hear Us? This requires attention to the message, the audience and the means of delivery. Previous studies show that the presence of seats, shelter, and even nearby trees make waiting for the bus seem shorter. Do you want a close relationship? We don't want soldiers to be risking their lives or behaving in an inefficient way on a battlefield because they've developed an emotional connection to a robot.

## The Danger of Advocacy Masquerading as Science

Impact may often be enhanced by involving citizens and civil society organisations in the process of policy monitoring and review and by gathering

demand-side data using techniques such as citizen surveys, social audits and participatory policy review. Should the initiative operate as an open coalition and, if so, what mechanisms are needed to enable participation and to assure accountability? South Barrier-free access from curb to bus is almost a given in the north; you are much more likely to have to navigate a row of parked cars in the south. Survival Skills for Advocates Once you go public with an advocacy campaign, you may draw the attention of a number of people, not all of whom will wish you well.

### **Chapter 30. Principles of Advocacy**

Mechanisms are needed to track activities such as meetings and communications and to monitor results such as media coverage and expressions of public support. First of all, AI is not like human intelligence — robots don't have the same skills as people.
