Ecological Guild Evolution and the Discovery of the World's Smallest Vertebrate

A latitudinal gradient for genetic diversity.

Detectability, philopatry, and the distribution of dispersal distances in vertebrates

This is known as being viviparous. Biology is the science of living things, and yet, paradoxically, living things--organisms--have been comprehensively left out of the Modern Synthesis theory of evolution that developed in the twentieth century. Kraus F, Allison A 2009 A remarkable ontogenetic change in color pattern in a new species of Oreophryne Anura: Microhylidae from Papua New Guinea.

Life History and Ecology of the Vertebrates

Chakrabarty P 2010 Genotypes: a concept to help integrate molecular phylogenetics and taxonomy. . The FoxO6 gene, on the contrary, seems to evolve positive selection, because category 8 occurs more frequently than expected by chance for 2 of the properties alpha-helical tendencies and compressibility.

FoxO gene family evolution in vertebrates

Ecology Letters, 7 12 , 1121—1134. Global Ecology and Conservation, 3, 297—309. Repeatable to a maximum of 12 cr hrs or 5 completions.

EEOB Courses

Biodiversity hotspots: A shortcut for a more complicated concept. Kraus F 2010 New genus of diminutive microhylid frogs from Papua New Guinea.

A checklist of Israeli land vertebrates in: Israel Journal of Ecology and Evolution Volume 65 Issue 1

Repeatable to a maximum of 12 cr hrs or 5 completions. Anthropogenic effects on activity patterns of wildlife at crossing structures. Labs focus on the identification of mammals and their diverse morphological adaptations including mammals of Ontario.

12.15: Amphibian Evolution and Ecology

Proceedings of the Royal Society B: Biological Sciences, 279 1749 , 4997—5003. Other ways of classifying the vertebrates have been devised, particularly with emphasis on the of and reptiles. See Departmental website for details.

A checklist of Israeli land vertebrates in: Israel Journal of Ecology and Evolution Volume 65 Issue 1

Individual notes range in duration from 2—14 ms and are produced at a rate of 1.
