### Detention Management

These standards were enacted to address the problem of sexual abuse and rape of all persons—adult and juvenile—in the custody of U. These states are: Nevada, South Dakota, Washington, Florida, Idaho, Montana, North Dakota, Arizona, Iowa, and Utah. With limited exceptions stays at residential centers are generally limited to 20 days.

### SCOC Manuals

Confinement Facilities that Serve Youth  
Many people struggle to understand the differences in the various types of confinement facilities in which young people may be held and the purpose of each facility type. The letter also called for common flu vaccines to be given to all

Filesize: 26.810 MB

those detained in ICE custody. Some intake and diagnostic facilities also conduct court-ordered, pre-dispositional diagnostic evaluations.

### Health Facility Operation and Management Committee (Reference Guideline)

Integrated Setting Inmates or detainees with disabilities must be housed in the most integrated setting appropriate to their needs. Individuals working under conditions that require PPE should not use a cloth mask when a surgical mask or N95 respirator is indicated see Table 1.

### **In Depth: Sentencing Guidelines and Correctional Resource Management**

If a shortage of PPE supplies necessitates reuse, ensure that staff move only from areas of low to high exposure risk while wearing the same PPE, to prevent cross-contamination. The administration has also determined that PREA applies to all federal confinement facilities, including those operated by executive departments and agencies other than the Department of Justice.

### **Immigration Detention in the United States: A Primer**

Clinicians should initiate informal inmate contacts via rounds onto the housing. Mental health staff cannot assume that every inmate who needs treatment will be referred for a formal assessment. If transfer is necessary, see section for safe transport guidance. Bryn Mawr, PA: The Campbell Library.

### **Oregon Statutes**

Though inmates can be removed from recreation, mental health staff should try avoiding this as much as possible. These diverse holding facilities have their own unique protocols and processes, making it difficult for detainees to navigate without uniform access to information about their rights or legal counsel. Although this guidance does not specifically reference individuals in every type of custodial setting e.

### **Justice Department Releases Final Rule to Prevent, Detect and Respond to Prison Rape**

**REQUIRED ADJUSTMENTS TO REPORTED COSTS** Adjustments are required to certain cost categories based on the procedural and physical operations of the detention facility. Process is about action and refers to the intensity of services, the quality of care, the quality of staff and their relationships with youth, and the philosophy of detention.
