## Source Cold Forming

Most of the links, which are plentiful and well placed, are either broken or link to resources at OSU's library, which I could not access.

## Online Resources

EBSCO - Index with abstracts to all aspects of sport, including sports medicine, physical fitness, sport science and recreation.

## Choosing & Using Sources: A Guide to Academic Research

For example, they have a handout from the OSU Writing Center, and they link to the OSU World Cat platform. EBSCO - Provides full text of articles from over 100 journals dating as far back as 1997, as well as indexing and abstracts of more than 380 publications dating back to 1983.

## Online Resources

So it could be timely to add a section on the known issues and some practical strategies to compensate for them. I was really pleased when looking through the section on citing sources - styles can change, but the book is written in such a way as to be comprehensive about the purpose of citing sources, and links out to many helpful web sources, citation tools, etc so the information will remain accurate in the textbook even if the style guides themselves are updated in the future. This dynamic becomes the most efficient way to understand what it takes to start a professional research.

## Online Resources

The links and examples of the services provided may need updating to keep them accurate but the nature of the online format makes this easily

possible.

### **Source Cold Forming**

W - Leading business newspaper of United States - International database of books and other published material complete with listings of libraries that own materials.
