Teaching Patients with Low Literacy Skills

The text provides insight for all of us concerned with improving health communication.

Teaching Patients About Healthy Lifestyle Behaviors: Communication is the First Step

Education for Patients and Clients sets out basic principles for providing patient education as an integral part of nursing care. I use the text in a graduate class on Health Literacy. Obesity and the Importance of Healthy Lifestyles Medical professionals know all too well that the prevalence of obesity in America has skyrocketed over the last two decades and that more than two-thirds of the population is overweight.

Education For Patients and Clients (Routledge Essentials for Nurses): 9780415148504: Medicine & Health Science Books @ vip.stumagz.com

Using a mixed media approach often works best.

Client Teaching Guides for Home Health Care (Gorman, Client Teaching Guides for Home Health Guides): 9780763749347: Medicine & Health Science Books @ vip.stumagz.com

This includes avoiding medical jargon, breaking down information or instructions into small concrete steps, limiting the focus of a visit to three key points or tasks, and assessing for comprehension by using the teach back cycle. Copyright © 2011 American Society of PeriAnesthesia Nurses.

Teaching Patients About Healthy Lifestyle Behaviors: Communication is the First Step

Some of its recommendations for clinicians are to calculate body mass index BMI; the most widely used screening tool for obesity, make overweight and obese patients aware of their BMI, and advise them of lifestyle changes to lose weight.

Teaching Patients About Healthy Lifestyle Behaviors: Communication is the First Step

The study showed that physicians and nurses were both equally able to provide behavior change advice in the primary care setting. Not only does it improve health outcomes, but it enhances patient satisfaction, the patient-clinician relationship, and treatment adherence. Call 911 for all medical emergencies.

Educating patients: understanding barriers, learning styles, and teaching techniques

Some patients need time to adjust to new information, master new skills, or make short- or long-term lifestyle changes.

**Client Teaching Guides for Home Health Care (Gorman, Client Teaching Guides for Home Health Guides): 9780763749347:
Medicine & Health Science Books @ vip.stumagz.com**

It challenges the view that simply giving information is enough and investigates strategies for making education as effective as possible.
