Chris Barber (philanthropist)

I hope I was suitably impressed.

The Garden of the Badhbh: Second Draft

The question was discussed in Lynch 1993 , which is reproduced in Appendix 4. However, for time-scales of a day or so, a reasonable approximation to reality is obtained when diabatic forcing is ignored.

The Emergence of Numerical Weather Prediction: Richardson's Dream

These are discussed in Chapter 3, and an analysis of their normal mode solutions is presented.

Organization and Procedure

If the time-step were 3 hours, then 32 individuals could just compute two points so as to keep pace with the weather.

Friends Ambulance Unit (FAU) in WWII: Finland, Greece and a Prisoner of War (POW) Camp

The Story of Leopold Engleitner. In theory one could hold that both points of view are A CONCHIE 39 correct, with some, the large majority, having a vocation to act on the one and some, the small minority of conscientious objectors, a vocation to act on the other.

Obituaries

David will be remembered by many friends who enjoyed his legendary hospitality at the family home in Bourne End, which always showed new evidence of his interest in collecting, whether it be antique furniture, silver or wine.
