Richard III: Entire Play

The Bones of a King: Richard III Rediscovered. Skeleton as discovered On 12 September, it was announced that the skeleton discovered during the search might be that of Richard III. In merito le testimonianze non sono chiare: il cronista borgognone afferma che un alabardiere gallese colpì mortalmente il sovrano mentre il suo cavallo era bloccato nel terreno paludoso e altri aggiungono che il colpo fu così violento da spingere l'elmo del re all'interno del cranio, uccidendolo dopo alcuni istanti di incoscienza.

Richard III: Entire Play

On 1 November 1461, Richard gained the title of Duke of Gloucester; in late 1461, he was invested as a Knight of the Garter. I would recommend seeing a film of the play, though, as it wasn't meant to be read--even aloud--but seen performed.
