Plane steady shear flow of a cohesionless granular material down an inclined plane: A model for flow avalanches Part I: Theory

First, the perturbation of the external field around the particles creates field gradients, which may result in nonzero dielectrophoretic forces due to Maxwell stresses in the fluid. Pourdeyhimi, The Effect of Chemical Etching on the Fracture Toughness of 3D Randomly Distributed Spectra 900 and Spectra 1000 Discontinuous Fiber Reinforced Composites, Composite Materials Technology, 1991, ed.

Professor Tim Phillips

Saintilan, Soft Matter 16 5534 2020. A brief account by D.

Polymer systems; deformation and flow. Proceedings of the 1966 annual conference of the British Society of Rheology. Edited by R. E. Wetton [and] R. W. Whorlow.

Maugin, have been published by North-Holland, Amsterdam, 1984. The Proceedings of the Symposium will be published by Kluwer Academic Publishers, Dordrecht, The Netherlands, in 2003.
