## INSTITUTE OF MANAGEMENT AND TECHNOLOGY

Year 10 Mechatronics Mechatronics is a practical course focusing on real-life engineering solutions. Students create and print images using Mac OS and Adobe Photoshop.

## The National Arts Education Archive

Additionally this course will provide instruction in advanced production and post-production techniques, including lighting, editing, compositing, 2D animation, graphics and sound design. Basic IT programs, like Sketch-up and CAD programs, will be used to give students a head start with programs used in the production and design industry with real-world applications.

## The National Arts Education Archive

Work in a technologically advanced, diverse and team-based shop environment. Need to know Replacement Qualification This qualification has been replaced by , as of 25 June 2019.

## School of Art Courses

As an International student you can either apply directly through our application portal Studylink, or through one of our education agents. The focus of this course is on helping students develop the skills and knowledge necessary to establish themselves as working professional artists.
